

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-7 (Cancelled)

8. (New) A cover for an air bag device comprising:
an emblem attached to an outer side of the cover, the emblem including:
a main plate arranged to the outer side of the cover;
a connecting extension projecting from an outer periphery of the main plate in a rearward direction of the emblem;
wherein the extension extends through a hole in the cover and includes a distal end that is bent; and
a covering portion provided on a rear side of the cover for covering the bent distal end of the extension.
9. (New) The cover of claim 8, wherein the distal end of the extension includes a hole.
10. (New) The cover of claim 9, wherein the covering portion is located in the hole.
11. (New) The cover of claim 8, wherein the extension is completely surrounded by the cover.
12. (New) A cover for an airbag module comprising:
an emblem including a main plate and a plurality of extensions;
wherein the main plate is positioned over the front side of the cover and the extensions are completely surrounded by the rear side of the cover.
13. (New) The cover of claim 12, wherein the extensions pass through a hole in the cover.

14. (New) The cover of claim 13, wherein the extensions include a distal end that is bent into a position parallel to the main plate.

15. (New) A cover for an airbag module comprising:
an emblem including a main plate and a plurality of extensions;
wherein the main plate is positioned over the front side of the cover and the extensions are completely surrounded by a rib portion of located on the rear side of the cover;
wherein the rib portions are configured to project outward away from the rear side of the cover prior to connecting the emblem to the cover and are moved into a position overlying the extensions after the emblem is positioned with the main plate overlying the front side of the cover.
